

Parrot® ASTEROID *Smart*

Navigation, Apps, multimedia and Bluetooth® hands-free

With the Parrot ASTEROID *Smart*, enter a new dimension in Infotainment. Just like on your tablet or Smartphone, customise your Parrot ASTEROID *Smart* with applications, access the Internet and navigate directly to your destination.

Maps

Weather

Roadtrip

Select your Apps

On the ASTEROID *Market*, download the Apps that best match your lifestyle on the road: Internet radio, music on demand, driver assistance...

Mobile Internet Access

The ASTEROID *Smart* connects to the Internet on the move in many different ways. Use your compatible Smartphone, a 3G/4G dongle or hook up to a Wi-Fi access point.

Enjoy your Music

The ASTEROID *Smart* plays the music from your mobile devices. Music can also be played from your favourite Internet radio station and music-on-demand Apps through your mobile Internet connection.

A User-Friendly Display

The ASTEROID *Smart*'s capacitive display includes Multi-touch technology. Browse through the Apps intuitively just like you would on your Smartphone.

Multimedia for All

The ASTEROID *Smart* can display video feeds from external sources, such as reverse cameras. It can also play video files on external screens, such as headrest-mounted displays.

Find your Way

The ASTEROID *Smart* includes a GPS sensor. In combination with your navigation App, it will help you find the best route to your destination.

Connect Two Mobile Phones

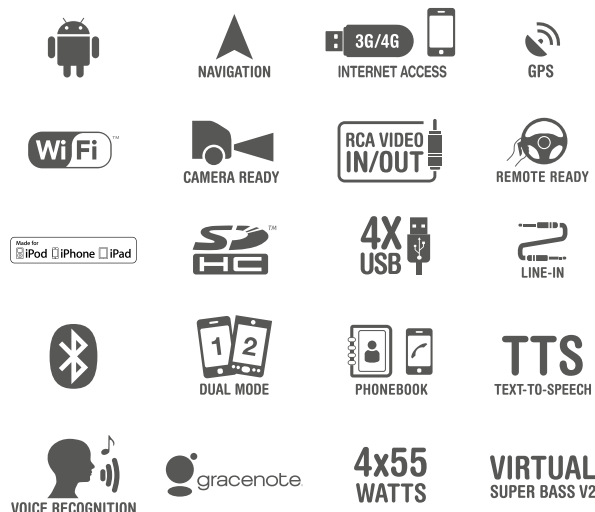

The ASTEROID *Smart* can connect to two mobile phones simultaneously; launch and receive calls with your business and personal phones seamlessly.

A Universal Format

The ASTEROID *Smart*'s dimensions conform to the 2-DIN standard. It is designed for vehicles with 2-DIN slots in their dashboards.
